Additions & Renovations Project

Construction management services for multi-phased, District-wide project

U.W. Marx provided Construction Manager as Agent services for a multi-phased project that included work at each of the **Brunswick-Brittonkill Central School District's** three schools - Tamarac High School, Middle School, and Elementary School.

At the Elementary School, work included a new media center, a new gym station, several new classrooms, and a new vestibule. Additions and renovations at the Middle and High Schools provided a new gym, new locker rooms, new auditorium, new lobby vestibule, and numerous new science labs and classrooms.

New roofing (more than 160,000 s/f) was installed on all three of the district's education buildings.

"During all phases of construction, the District was kept informed about progress and any pertinent issues that arose Safety was enforced and attention given to assuring the highest quality of work

We were impressed with the honesty, work ethic and depth of knowledge of the U.W. Marx team."

Ms. Gail Lathrop
Director of Business Operations
Brunswick-Brittonkill Central School District
