Alterations, Addition & Sitework

Multi-phased construction management project

U.W. Marx Construction Company provided Construction Manager as Agent services to the **Cherry Valley-Springfield Central School District** for an alterations, addition and sitework project.

Building elements of the \$8.5 million project included an entrance addition, roof replacement, interior reconstruction and upgrading of heating, electrical and plumbing systems.

The project has renovated the school's entrance and lobby, numerous science classrooms, the school cafeteria, and district administrative offices.

Site work included re-grading, asphalt pavement, concrete sidewalks, new traffic pattern implementation, curbing and storm drainage.

The project was completed on schedule in January of 2011.

PROJECT HIGHLIGHTS

- U.W. Marx: Construction Manager
- Renovations to cafeteria
- Renovation to create new school entrance and lobby
- New administrative areas
- New science classrooms
- Sitework includes new traffic pattern implementation
