New Ellis Health Center

Renovations and alterations for new 'Medical Home' concept

U.W. Marx Construction Company was entrusted to complete renovations for **Ellis Medicine** associated with the transformation of the old St. Claire's Hospital on McClellan Avenue in Schenectady to the new 'medical home concept' **Ellis Health Center**.

The **medical home concept** promotes patient-centered, physician-guided, better coordinated and cost-effective care.

The overall goal is to improve quality of care and access to primary care and preventive/wellness medicine.

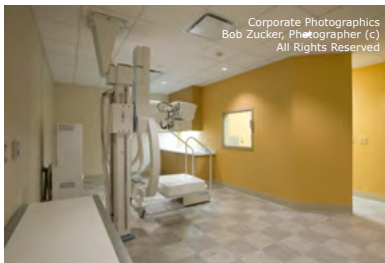

All renovations were completed in multiple phases to minimize the impact on current patients and staff.

PROJECT HIGHLIGHTS

- U.W. Marx: Construction Manager
- Expansion of imaging department
- New dental suite with ten treatment rooms
- New central registration
- Renovated waiting areas
