EXCEL Capital Expansion Project

Multi-phased upgrades and improvements

The U.W. Marx team has provided construction services to the **Mohonasen Central School District** since 1996, involving five separate capital projects and more than \$60 million of new and renovation construction.

The District's recent **EXCEL Capital Expansion Project** involved major upgrades to all "Life and Safety Systems" as well as energy enhancements throughout the District.

U.W. Marx was hired as Construction Manager prior to the search for the design team in an effort to offer guidance and assistance in choosing the design entity as well as defining the scope of the project. The final scope was arrived at after hiring the design team and then conducting extensive reviews of existing systems and conditions, coordination with the District's 5-year plan, and numerous meetings with staff, focus groups and the Mohonasen Board of Education.

"The Mohonasen Central School District has enjoyed a relationship with Mr. (Jeff) West for over 15 years through five capital projects. Throughout that time, Mr. West has displayed professionalism, loyalty, competence, creativity and effectiveness as he functions in the capacity of construction manager."

Mr. West is an integral part of the success of our district's long-range planning and construction team. I recommend him without reservation and feel that he is a valuable asset for any district considering a capital project."

Dr. Kathleen A. Spring, Superintendent of Schools
Mohonasen Central School District

PROJECT HIGHLIGHTS

- U.W. Marx: Construction Manager
- Multi-phased upgrades and improvements
