Mission-Critical Facilities Upgrades

Renovations, alterations and new construction, including new state-of-the-art Control Centers and Data Centers

U.W. Marx has been contracted by the **New York Independent System Operator (NYISO)** to construct mission critical facility upgrades to NYISO's two upstate New York locations in East Greenbush and Guilderland, NY.

PROJECT HIGHLIGHTS

- U.W. Marx: Construction Manager @ Risk
- Concurrent mission-critical facilities upgrades at 2 separate locations
- Scope of Work at Guilderland location includes a 12,000 s/f data center addition, replacement of existing Control Room consoles, and significant renovations to existing facility infrastructure, including renovations to security office and telecommunications center
- Work at East Greenbush site includes a 64,000 s/f state-of-the-art Control Center addition and renovations to 3rd and 4th floors of existing facility, including move management of NYISO staff and renovations to the security office, as well as infrastructure, site and mechanical unit improvements.
