Campus Expansion Project

Multi-phased additions and renovations

The U.W. Marx general contracting division constructed extensive additions and alterations at **Samaritan Village**, an adult residential treatment center for alcohol and substance abuse, located in Ellenville, NY.

Under Phases I-III, new construction included two new dormitory buildings and a new dining and food service facility. Extensive renovations have provided for a new program/education building and new recreation facilities. The scope of work also included site improvements and renovations to maintenance and operations facilities.

In October 2009, based on the quality of the work provided, U.W. Marx was awarded a lump sum contract to begin Phase IV of the project, construction of a new Women Veteran's Dormitory on the Ellenville campus. The new dormitory was successfully completed in October 2010.

PROJECT HIGHLIGHTS

- Three new dormitory buildings
- New recreation, dining, food service facilities
- Extensive sitework, including new roads and parking areas
- Multi-phased project delivery
