Wastewater Treatment Plant Reconstruction - Phase 2

Reconstruction and improvements project

U.W. Marx Construction Company provided general contracting services to the **Town of Schroon** for **Phase 2a** of the town's **Wastewater Treatment Plant Reconstruction and Expansion** project.

Phase 2a included reconstruction of a portion of the existing wastewater treatment plant and control building. The project scope of work included minor demolition, electrical system (power and lighting) replacement and water services improvements.

The project scope of work also included a new ventilation system, effluent filter system replacement, new UV disinfection system and enclosure, new sludge drying bed and weather protection structure, security fence replacement and miscellaneous site improvements.

U.W. Marx worked closely with project designer **AES Northeast, PLLC** of Plattsburgh, NY.

PROJECT HIGHLIGHTS

- U.W. Marx: General Contractor/Constructor
- Electrical system upgrades
- Constructed under strict NYS DEC guidelines
- Water services improvements
- New sludge drying bed and new weather protection structure
