## Huether School of Business

### *Addition and renovations project*

U.W. Marx is serving as construction manager for an addition and renovations to the **Huether School of Business** at **The College of St. Rose**. The Huether building will serve as the new home of the school's growing finance, management and accounting programs.

This adaptive re-use project will re-purpose the existing 19th-century Queen Anne-style building with the latest technologies in new classrooms and seminar rooms.

An addition housing new classrooms, faculty and administrative offices and seminar rooms will be constructed at the south end of the building.

A project ground-breaking ceremony was held on October 20, 2011. Working closely with project architect Sacco and McKinney Architects, PC of Latham, the U.W. Marx team will complete construction prior to the start of the fall 2012 academic calendar.

## PROJECT HIGHLIGHTS
