

## GE iWERKS Theater at Proctors

*Schenectady, NY*

New construction of a 450-seat multi-purpose space designed to display iWERKS™ Extreme Screen showings of 3-D movies.

U.W. Marx's scope of work included the structural foundation and two floors of interior construction including metal stud, drywall, carpet, ceramic tile and accoustical ceilings.

The space was constructed with retractable theatre seats, so that it can also be made available for smaller cabaret events, lectures, trade shows and similar events.
