

Page Avjet/Signature Flight Support *Executive Aircraft Terminal* *Albany International Airport* *Albany, NY*

The U.W. Marx construction management team constructed this new modern executive aircraft facility at the Albany International Airport in upstate New York. **Page Avjet** of Rochester, New York, as part of its campaign to re-brand itself under the name **Signature Flight Support**, hired Marx to build a facility that would enable the company to meet its goal of providing top-tier services to its upscale customer base.

The 45,000 SF structure, including aircraft hangar, passenger services facilities and administrative space, required intensive attention to detail, and was constructed under a rigorous schedule.

U.W. Marx helped architect **Crozier & Associates, P.C.** and the client bring their project in under budget by pursuing value engineering efforts during the preconstruction and construction phases.

U.W. Marx Role: **Construction Manager**

Project Value: **\$3.2 million**

Completion: **1990**

DESIGNER:
Crozier Associates
79 North Pearl Street
