

## National Museum of Racing & Hall of Fame

*Saratoga Springs, NY*

### *Addition & Renovations*

U.W. Marx worked with **Butler Rowland Mays Architects, LLP** to renovate the existing building into a first-rate retro-fit museum befitting the upstate New York horse-racing and resort community.

Marx's team constructed a new 10,000 SF addition around the existing museum while it remained fully operational, and then renovated 28,000 SF of the existing museum during a winter/spring shutdown. The project included a complete new heating, A/C, humidification and temperature control system, 4,500 s/f of new exhibit space, and new entryways, main lobby, and gift shop.

Also, existing dormant space was converted into collections-storage with state-of-the-art climate-control capabilities. The high level of quality and adherence to schedule was demanding, and was achieved very satisfactorily.

**The project was recognized as '2001 Project of the Year' by the Construction Management Association of America, NY-NJ Metro Chapter.**

U.W. Marx Role: **Construction Manager**

Project Value: **\$5.7 million**

Completion: **June 2000**

CLIENT:

**National Museum of Racing & Hall of Fame**
